I am in receipt of a letter from my
brother, Geo. L. Athy, who is at Chick-
amauga, stating that he is in the best of
health, not having been sick a moment
since he joined the army. He says that
Frank Osborne and his brother, who be-
long to Prater's cavalry, are in the hos-
pital with fever, but that all the rest of
the Wolfe county boys are well and sat-
isfied. He says he only has to drill 3
hours a day, and that it is the opinion of
General Grant and Col. Gaither that the
Second Regiment will never see ser-
vice on foreign soil, and that if no for-
eign complications arise they will stay

at Chickamauga until October or be
sent back to Lexington and mustered
out, as it is the general opinion of the
officers that the end of the war is near
at hand. He says that the Second Re-
giment is well equipped and anxious to
go to the front, and that Gen. Grant is
proud of the Second Kentucky, and says
that it is the best regiment in the pack.

GENERAL MILES

**Has Arrived at Puerto Rico and
the Campaign Will Soon
be On.**

TROOPS BEING RUSHED TO THE FRONT.

WASHINGTON, July 24.—It is calcu-
lated that Gen. Miles has arrived at the
point on the coast of Puerto Rico select-
ed as the rendezvous for all the vessels
of the expedition. Whether or not he
will undertake to make a landing in ad-
vance of the arrival of the whole expe-
dition probably will depend entirely
upon conditions as he finds them.
Should there be no Spanish force, or, at
least, an inconsiderable one, on the coast,
the troops will be landed to relieve them
from the disastrous effects of being con-
fined closely on ship board under a tropi-
cal sun. The General has with him
sufficient artillery to hold any position
he may choose to occupy, supplemented
as this artillery will be by the guns of
his naval convoy.

Meanwhile the department is making
every effort to hurry along the remain-
der of the expedition. Some troops are
new on their way from Tampa and
Charleston, and should reach Puerto
Rico by the middle of the week. Naval
officials are assisting actively in getting
the troops off, and were engaged today
in sending the necessary orders to that
end to the commanders of the naval
auxiliary vessels which have been placed
at the service of the War Department.

CLOSE TO MANILA.

**Only Two Miles From the Spanish Lines
Is the American Advance.**

NEW YORK, July 25.—A special dated
Cavite, July 24, via Hongkong, July 25,
says:

The entire regiment of First Califor-
nia Volunteers advanced today to Jan-
bo, only two miles from the Spanish
lines surrounding Manila.

The California troops have been thrown
out by General Anderson to form the
advance of the attacking force. South
Manila is to be captured first. The Col-
orado and Utah batteries are being land-
ed at Parangue directly from the ships.
The Tenth Pennsylvania Volunteers,
with the rest of the artillery, will be
landed at Malabon, just north of Ma-
nila.

THE ARMY OF SANTIAGO

**To be Moved to the Mountains of North
Carolina, Where the Health of Fever
Stricken Soldiers May
be Restored.**

TAMPA, FLA., July 24.—A high of-
ficial was asked today what his idea was
about the apparent change in the orders
moving troops from this place. He said
that he had it from headquarters that
there was to be a considerable change in
many ways. To begin with, the army
was to be moved from Santiago as quick-
ly as possible; they are to go to the
mountains of North Carolina, where the
yellow fever will be stamped out entire-
ly. This is to be done in about a month,
and the men given a good rest. Then
they are to fall on Puerto Rico or Ha-
vana, whichever place may need them.

Kentucky Timber Lands Sold.

A special from Mt. Sterling to the
Louisville Dispatch, under date of July
31, says: Judge B. F. Day, of this city,
has just closed a sale of 6,000 acres of
growing timber land on the waters of
Beaver creek, Menefee county. The
property of F. L. Sittser and the Wy-
oming National Bank, of Wyoming, Pa.,
was transferred to John B. Fassett, of
Tunkhannock, Pa.; John T. Phillips, of
Dallas, Pa.; and John T. Halleck, of
Wilkesbarre, Pa. The price paid is
\$3.50 per acre. The timber is largely
oak and poplar.

This sale necessitates the building of
a railroad across Menefee county to con-
nect with the Kentucky and S. A. at
Rothwell, or the Licking Valley at Yale.
The work of construction will begin at
once.

LATE STATE NEWS.

WHEAT is selling at 65 cents at Ver-
sailles.

FINE leaf tobacco was sold in the
Hopkinsville market last week for \$17.50
per 100 pounds.

A FALMOUTH firm has contracted for
200 acres of enumerbers. They expect to
raise 40,000 bushels.

CLINT JENKINS, a captain in Colonel
Frank Wolford's First Kentucky Cavalry,
died at Standford, aged 75 years.

THE Lancaster city council has passed
an ordinance requiring the construction of
about 5,000 feet of brick paving with stone
curbing.

HENRY SPENCER, aged about 45 years,
committed suicide at Lexington one night
last week by jumping from a four-story
building.

THE news comes from Frankfort that
the Prison Commissioners will take formal
possession of the penitentiary on Monday,
having elected officers Friday night.

BEER drinkers of Lexington are stric-
tly in it on account of the beer war in pro-
gress at that place, and the local brewery
will bring the price down to \$4 per barrel.

LONNY VEATCH, a young man of Pa-
duch, shot himself in the abdomen and
will die. Relatives say it was accidental,
but his previous despondency indicates sui-
cide.

THE Northern Bank, of Lexington,
one of the oldest in Kentucky, has decided
to go into liquidation and quit business. It
has a capital of over \$1,000,000, and a sur-
plus of \$90,000, the tax on which for munici-
pal and State purposes, forced this action
of the stockholders as the only relief.

PRISONERS in the jail at Edmontson
last week overpowered the jailer and five
men escaped, among them Ed Hays, con-
victed of manslaughter and sentenced to
21 years, and John Blades, who was under
a jail sentence of six months and a fine of
\$250 for shooting in sudden heat and pas-
sion.

WHILE Sheriff Barlow, of Barren
county, was taking some prisoners to the
Eddyville pen, a drunken man came into
the train on which they were traveling and
tried to force the Sheriff and his prisoners
to drink. Upon refusal, he slapped a pris-
oner in the face, and the Sheriff choked him.

JOHN BAKER, a brother of Tom Baker,
leader of the Baker faction, was released
from the Barbourville jail one day last
week, and went back to Clay county. While
on his way home from Manchester, in com-
pany with a negro, the two men were fired
on from ambush by the Howards and
Whites. Both were killed by the first vol-
ley. The men in ambush then rushed out
and fired forty-one 45-caliber bullets into
Baker's body, and twenty-one into the
negro's. Baker's body was cut into frag-
ments, it being almost impossible to load
the corpse in a wagon.

JOTTINGS BY THE WAY.

**An Interesting Budget of News From Our
Young Friend, Jas. H. Swango.
Who Writes as He Runs.**

J. G. Trimble, of Mt. Sterling, spent
two weeks recently in Memphis a guest
of his brother Frank. While there he
made a fishing trip to Black Lake, Ark.,
and caught so many fish that it became
no longer any sport, when the party
broke camp.

Misses Stella and Myrtle Harman, of
Warrensburg, Mo., are visiting relatives
in Paris, Ills., and will spend a few
weeks at Hazel Green later in the sum-
mer as guests of their uncle, G. B.
Swango.

When Mat Long comes home showing
his scars made by Mauser bullets, he
will tell you blood curdling stories that
will make your hair curl. The 75 regu-
lars that started for the stone fort on a
hill reckoned for more than they knew.
Fifty-three were killed making the as-
cent of the hill, and the 22 remaining
went through the roof of the fort, and
in a hand-to-hand fight killed the entire
garrison of 35 Spanish soldiers with the
loss of only four men. If newspaper ac-
counts can be believed, no fiercer fight-
ing was ever done than before Santiago.
Mat Long was wounded in the campaign
against that city, and was taken to the
army hospital in New York on board
the Olivette. From the information I
could get his wound is not dangerous.

Frank Trimble, from Pomeroyton, was
at his post on the battleship Oregon and
helped to point the \$600-per-shot guns
at Cervera's fleet off Santiago. He stood
bravely on the deck amid shot and shell
and saw the ships of the enemy go to
the bottom.

Your writer has kept tab on the moun-
tain boys, and so far has seen only the
name of Mat Long in the list of fatali-
ties. When it comes to fighting a Ken-
tuckian can usually take care of him-
self.

The record of the wheat market was
broken several times during the past 12
months. It started in at 58 cents a year
ago. In May it went to \$1.81. In less
than 30 days it dropped to 67 cents, and
all a result of Lieter's speculations. At
one time he was supposed to be four
million ahead, but the bubble busted
and the old man had to be called on to
foot up the losses. He has already paid
three million and bills continue to come
in. A bigger fool and bigger money
never parted company quicker.

THE HERALD.

SPENCER COOPER : : Editor.
HAZEL GREEN, KY.
THURSDAY..... July 28, 1898.

DEMOCRATIC TICKET.

FOR CONGRESS—10TH DISTRICT.
Hon. Thos. Y. Fitzpatrick,
OF FLOYD COUNTY.

THE news comes from Madrid that Gen. TORAL will be court-martialed for surrendering Santiago to the Americans, but it is not probable that he will be punished.

THE Spanish soldiers will be taken back to Spain by the Compania Trans-Atlantica Espanola, a Spanish company which agrees to transport the troops at \$20 per head for privates and \$55 for officers.

THE presence of five German warships and a transport at Manila, leads the Spaniards and other foreigners to conclude that it means Germany's friendly interference in behalf of Spain. They regard the presence of the German fleet as a warning to the Americans that they shall not go too far, and a conflict is not improbable.

ACCORDING to the story of our young friend and fellow-mountaineer, MAT LONG, the fight that forced Gen. TORAL to surrender Santiago to Gen. SHAFER was the result of a war whoop started by a private in the Sixth Infantry, and this is borne out by the semi-official statement that only the rank and file had part in the fight. At no time during the engagement was any general within two miles of the fight, and to the line officers and privates belong the victory.

THE machete, used by both the Spanish soldier and the Cuban insurgent as a weapon of war, is now for sale in Santiago in large numbers. Indeed, it is said that there are more machetes on the market than there were men in the combined armies of TORAL and GARCIA. Americans are buying them as trophies of the battle at Santiago, and by and by hundreds of men who did not hear the report of a gun will be exhibiting them and telling of how they snatched them from Spanish soldiers during the fight before Santiago.

SYLVESTER SCOVEL, the war correspondent of the New York World, is threatened with trial by court-martial, and that tribunal can fix his punishment at death. SCOVEL tried to make himself a part of the commission assigned to raise Old Glory over Santiago after the surrender, but the guards shoved him aside. This incensed him, and thinking Gen. SHAFER responsible for the conduct of his soldiers, he pushed through the crowd and slapped the General in the face. The General was ignorant of the cause, but had him arrested and he is now in the guard house awaiting the assembling of the court.

THAT Printers' Ink will bring both fame and success can no longer be questioned by any man, in the light of recent developments. Some 10 or 12 years since GEO. P. ROWELL & Co., advertising agents of New York, promulgated Printers' Ink, a weekly publication devoted to the interest of advertisers. It has filled that "long felt want" so well, that it is

now referred to as the little school-master, in that it has taught the art of advertising to hundreds of aspirants, and its success has been so phenomenal that Fame and Success, two publications which have the same general aim, have been produced.

A CLASH between the Cubans and the American soldiers is imminent and may occur at any moment. GARCIA, one of the insurgent leaders, declined Gen. SHAFER's invitation to attend the raising of the flag over Santiago, and while the Americans were doing the fighting before El Caney and Siboney, the insurgents were in idleness in the rear and refused to even cut poles to make improvised litters to bear off the wounded of our army fighting for their freedom. All in all they appear to be a sorry lot, and the United States may have to keep a standing army in Cuba to keep them under control.

OUR SOLDIER BOYS.

A Member of the Fourth Regiment Writes The Herald From Camp Corbin, and Says the Mountain Boys are in Fine Fettle.

CAMP CORBIN, LEXINGTON, KY., July 18, 1898.

EDITOR HERALD:—Even in our preparation for a march to the sea, an invasion into the enemy's land, and a destruction of a corrupt and despotic government, we cannot forget the "dear old Herald" and the hallowed memories of the good people of Wolfe county during our brief stay among them at Campton last year, and will give them, through your columns, some notes from the camp of the Fourth Kentucky that may be at least of passing interest to them.

In mingling within the lines of the different companies we note the following Wolfe county boys, who, in their patriotism, are ready to sacrifice their lives on the altar of their country in defense of American honor, our country's flag and in remembrance of the loss of the Maine.

In Capt. Harlan Beatty's company, Company C, from Beattyville, we find Sam Hurst, Curt Lykins, Tom Sherman, Wiley Steele, George W. Steele, George Combs, Newt. Netherly, John Cable, W. H. P. (Friday) Duff, Boone Henry, Taylor Tolson, Joe T. Williams, Samuel C. Proffitt, Dodridge Brown, Tilden Taylor, Wm. H. Campbell, Bowen D. Buchanan, and James R. Ross. In the Breathitt company, John Patrick, captain, are the following: Tom Stamper, C. T. Byrd, Moody Lacey, Clay Oliver, J. A. Sebastian, Bent Little, Breck Amyx, Jap Green, Geo. Taulbee, Curtis Wilson, Brit Strickland, Byrd Wells, Reubin Williams. Alvin Oldfield was here two weeks, but when it came to the muster, either the thought of "the girl he left behind," or he couldn't stand the ordeal of a Spanish bullet caused him to back down, and he was invited, in the customary manner, out of camp. All the boys are doing well, manly filling any and all duties imposed upon them, and stand ready for any command against the enemy. The chances are the Fourth will be sent to the Philippine Islands at an early date to do garrison duty, if not to engage in active hostilities. They are rapidly advancing in foot movements, and will readily catch on to the manual of arms. The boys present a fine appearance in their new uniforms, which, with their general deportment, gives cause for general congratulations to Wolfe that it is so well represented by the contingent among us. We see all of the boys nearly every day, we being associated with the Breathitt company, and speak for them their splendid health and praise for their subordination to the strict discipline.

Sergeant Sam Hurst and Geo. Taulbee are now at their Wolfe county homes on a few days' furlough, and others will follow after regimental muster in on Thursday.

Judge J. C. Lykins and Hon. A. H. Stamper were prominent Campton visitors to our camp during the past week, and were cordially received by the boys, who are at all times proud to have county people among us. Others of Wolfe who have also visited us were Bowen D. Rose, Sheriff A. T. Combs and Hon. C. C. Williams.

Many of the boys often wish for the presence of R. J. White, with his ready wit and humor, among us. We know if

Dick is too light for a soldier he can at least fill the place of a drummer boy. We hope for a visit by him, at least, before we leave.

No more popular commanders ever preceded a regiment to battle than is found in Col. Colson and Lieut. Col. Murray, and their kindnesses are appreciated by the boys, who in return will reflect credit on them and their old Kentucky homes, and will go from our soil the finest body of men that ever trod the turf of the grand old Commonwealth.

Best regards to Bro. Cooper, friend Dick White and friends of Wolfe.

Small-Pox in Southeastern Kentucky.
STATE BOARD OF HEALTH,
BOWLING GREEN, KY.,
July 18, 1898.

To the Health Officials, County Officials and People of Southeastern Kentucky: Small-pox now exists in Laurel and Clay counties and it is widespread in Jackson county. Every class of the population is affected and the disease is in epidemic form.

If every man, woman and child in Southeastern Kentucky is vaccinated at once danger of a serious epidemic will be removed. Every person remaining unvaccinated is a menace, not to themselves alone, but to the health and business welfare of their entire section. Children should be vaccinated when quite young, and older persons should be re-vaccinated every seventh year, at least. This method of prevention is as cheap as it is safe and easy, when properly done, with reliable virus. The operation should be done by a competent physician, under proper aseptic precautions. Reliable virus may be obtained from the Henry Drug Company, Louisville, Kentucky.

In addition it is earnestly requested that the boards of health for each county and town perfect their organization at once and confer with their county courts so that arrangements may be made to stamp out the disease as soon as the first case appears. Physicians should be on the lookout for first cases. An especial watch should be kept over teamsters, tramps and peddlers. Prompt and intelligent organization will save heavy expense to all counties interested, as the cost of stamping out the disease must be borne by the county courts.

This Board holds itself in readiness to give you any assistance in its power at any time.

By order of the Board:

J. M. MATHEWS, M. D., Pres.
J. N. MCCORMACK, M. D., Sec'y.

Comment is Unnecessary.

Hon. Spencer Cooper, Hazel Green, Ky.:

My Dear Sir:—Will you please inform me why we fail to receive THE HERALD on Friday? It arrives at Campton on Thursday, but does not arrive here until Monday, very often, notwithstanding the fact that we receive mail from Campton 3 times a week, Monday, Wednesday and Friday. Sometimes the paper is marked, "Please let this go to Spradling." There is something rotten somewhere. Respectfully yours,

PROF. CORD is teaching the Institute at Campton this week.

JOHN WILL GILLEY, of Laurel, died Monday night, aged about 23 years.

EMMET LEDFORD, of Spencer, is here on a visit to relatives and friends, but will probably start for home today.

MRS. MASON JONES, of near Daysboro, has been confined to her bed and home by illness for several days past.

BENJ. SEWELL, of Campton, passed through here Monday enroute to the Republican convention at Paintsville.

WM. CLAYTON, of Young's Spring, Bath county, is very anxious to have a fair this fall, and authorizes the editor to act for him.

ELDER J. T. PIERATT will begin a meeting at the Old Grassy church on Friday (tomorrow) night, which will be continued indefinitely.

PROF. G. N. STEPHENSON, who is on a visit to our town, has consented to and will fill the pulpit of Elder Cord at the Christian church next Sunday morning and night.

A MR. BOWMAN, representing Craddock, Terry & Co., boot and shoe wholesalers, Lynchburg, Va., was among the commercial tourists that struck our town last week.

E. O. AMOS, representing the John E. Hibben Dry Goods Co., Cincinnati, was here last week and sold a fine bill of goods to J. T. Day, at this place, and two good bills at Campton.

JOHN E. BROOKS and wife left Wednesday for Menifee county, where they will visit their son-in-law and wife, Mr. and Mrs. J. P. Spencer, and also to see that their son Arling returns home in due time.

PRESENT subscribers to THE HERALD can renew for a year or advance their subscriptions by paying in 50 cents cash. On and after Sept. 1, 1898, the subscription price will be raised to \$1.00 a year, strictly in advance.

DR. BELL'S Pine Tar Honey acts as a balm to the lungs, cutting the mucus, allaying the inflammation, healing and strengthening. It is sure to do you good—cannot do you harm. Thousands have been benefited by its use.

MISS VIRGIE and Mallie James, and John Rose and Willie Pieratt, paid Campton a visit Sunday. Mr. Pieratt left Miss Mallie at Campton, where she is attending the institute, and the other couple returned Sunday evening.

DURING the absence of Mrs. Lou Day it is "mine host and hostess Mr. and Mrs. John H. Evans," and they seem quite well suited to the situation, John to entertain and his good wife to superintend the preparation of the edibles.

PROF. G. N. STEVENSON, former assistant teacher in the academy at this place, but now of Lexington, accompanied by Prof. Schoonmaker, of Eureka College, arrived in our town Monday, and will remain for a fortnight. They are guests of Mrs. Ellen Kash.

J. TAYLOR DAY, who has been at Hot Springs, Ark., for the past four or five weeks, is expected home next week, and all who are interested in having a fair at Hazel Green this fall should confer with him about it. Mr. Day realizes the importance of maintaining this institution in our midst, and will do as much or more than any other man in that direction.

OUR town was startled by the alarm of fire Friday evening last, and the male population hastened to the scene, which proved to be the residence of John M. Rose, the kitchen roof being in a blaze. Wm. Combs, colored, sounded the alarm, and only the quick response of the men of the town and their heroic work saved it. The damage was about \$25.

JOHN PIERATT says Monday to our man about town, "My Jersey cow brought a calf Saturday night, and already I have been offered \$15 for it; \$7.50 by Judge Swango and \$7.50 by Ova Swango." He also offered to bet there was not a bushel basket in Wolfe county that would hold the milk the cow gives at one time. John is a joker.

ELDER JIM TOM PIERATT came home Tuesday from Zanesville, at which place he reports a very interesting meeting on Saturday and Sunday. He also reports good meetings at Frenchburg, Bowen and Rogers Chapel, and says much interest was manifested at each place.

FRANK HORTON, the clever Camargo merchant, came up Saturday to take home his wife and little daughter, Nettie, and has been shaking hands with friends and acquaintances in and about Hazel Green this week. Mrs. Horton is a sister of Mrs. Rilda Day, with whom they are stopping.

THE public school at this place was begun last week under Miss Mallie James as teacher, and opened with a very good attendance. Miss Mallie taught the same school a few years since and rendered such universal satisfaction that many of the patrons and her former pupils are glad that she was again chosen.

CURTIS PIERATT was visiting his brother, Willie, at this place. Monday. He has just returned from Illinois, and said Frank Kash, of this place, was at Bushon, Ill., when he left, and is now enroute home. Curtis had a small bone of his arm broken while stacking hay, and is now carrying the wounded member in a sling.

NEW subscriptions to THE HERALD will be received at 50 cents a year until September 1, 1897, and all old subscribers may renew or have their subscriptions advanced at the same rate up to that time. On and after that date the paper will be enlarged to 24x36 inches, all home print, and the price will be \$1 a year, in advance.

W. C. CRAWFORD, of Paris, has been engaged to teach the colored school at Daysboro, and arrived here several days ago, since which time he has been the guest of our colored fellow citizens, C. L. Mayberry and wife. He is attending the Teachers' Institute this week, and is said to be up to date in his ideas of work in the school room.

Our poet and artist has just finished painting Mr. Willie Swango's house. The body is white, trimmed with rich red, while the double portico is handsomely decorated with colors of green and red, making it one of the very prettiest fronts a person would wish to gaze upon. It is a marvellous change from an old house to a thing of beauty.

MRS. LOU DAY left Saturday morning for Hot Springs, Ark., where she contemplates a stay of five weeks. For some time past, indeed, for years, she has been a victim of erysipelas, and to eradicate the disease will try the efficacy of warm water erupted from the earth. Her many friends hope she may return to them the picture of health and in the bloom of youth and beauty.

ONE of the saddest deaths we have ever been called upon to chronicle is that of Robt. Wills, of Maytown, who was killed by gas in an old well at Ezel Tuesday. He had contracted to bore the well deeper, and started down in a bucket to set the drill. Before he reached the bottom he was overcome by the inhalation of irrespirable gases and fell from the bucket. He was the only brother of Mrs. F. N. Day, of this place, and she has the sympathy of the entire community in her sorrow.

Henry B. Land, a prominent farmer of Madison county, who was here drinking the water of Swango Spring, died at that place Saturday evening about 1 o'clock. Dr. Kash, who attended him during his illness, and who was with him at his death, pronounced the cause of his demise to be general dropsy. His wife and others who were here with him, however, said that a tree fell on him a few years since, and they thought he had never fully recovered from that shock. His remains were taken to Madison for burial, accompanied by his wife, Mrs. Taylor and Cam Buchanan, all of whom are of the same county, and were at the springs for recreation. Mr. Land was very feeble when he came here. In fact, his home physicians had informed him that they could do nothing for him, and he was brought here as a last resort. During the first week or ten days his friends were flattered with the hope that he was improving, but the sequel shows that hope to have been ill-founded.

Magoffin County Boys.

Den Patrick, who was with the Fort Thomas troops at the outposts of Santiago, and who was killed in that battle, was a native of Magoffin county, a son of Little Reuben Patrick. He was about 20 years old.

Charles Franklin, who was wounded at Santiago, was formerly a citizen of Paintsville, and a son of John Franklin, of Magoffin. He was about 24.

The former was a nephew of Mason Jones, of Daysboro, and the latter a nephew of Mr. Jones' wife. Mrs. Andy Nickell and Deputy Postmaster Edgar Jones are first cousins of heroes of Santiago, and regret very much the distressing news. As nothing definite is known of the wounded boy, hope is entertained that he may recover.

The Twentieth Century Village.

A series of articles on village life is begun in the August Ladies' Home Journal under the heading, "The Twentieth Century Village." Writers who have made a study of the smaller communities will contribute the articles, so that they will be entirely practical. All the conditions of village life, and the adjuncts that serve to bring the village in closer touch with modern improvement and development, are treated in practical detail, and the articles will doubtless be most useful to people living in the smaller towns and villages.

REV. J. H. WALLIN and his son Monroe left Tuesday morning for Hazard, where the former will assist Rev. Farnsworth in a meeting for a week, after which he will go to Frozen to hold a meeting for a week, where he will be assisted by Rev. Mr. Groves, of Pisgah. Monroe will play the organ in the meetings and later on do some work in photography. The Messrs. Wallin will also take subscriptions for THE HERALD, and as the paper will be enlarged to 24x36 inches on Sept. 1, all who desire to subscribe should avail of the present 50 cent rate. When it is enlarged the price will go to \$1.00 a year in advance.

Two of our boys that went to Lexington last week to enlist in the army, John Sebastian and Moody Lacy, concluded that they had nothin' agin' the Spaniards now, and returned home.

NOTICE

To the Overseers of Wolfe County Roads.

I hereby notify and request all the overseers of the Wolfe county roads to warn in their hands and put their roads in good order at once. Now is a good time to make and improve the roads, as it is the most leisure time of the year with the farmers, and the roads will have time to settle before winter if repaired at once. The spring season is the best time to repair roads, as you can see how and where they need to be drained, and they would have more time to settle, but in view of the fact that the farmers were very busy and behind with their crops this spring, I have suffered the roads to be neglected, but no excuse for further delay will be accepted. I suggest that each overseer warn in their hands and work at least 2 days each week until the roads are put in good order. I hope each and every overseer will take an interest in repairing their roads, not only for present use, but for winter use. They should be well drained and thrown up and filled made where they get muddy in winter, and if this is done we will have good roads even in winter. There are some new roads needed and some changes necessary to be made in the old roads, and the public does not seem to understand how to proceed, and for their benefit I will give them this information:

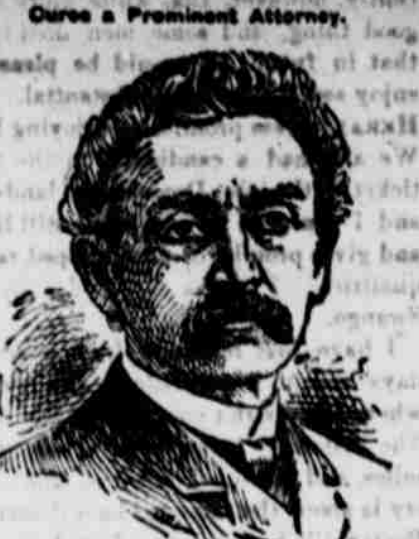

Application to have a new road opened, or a former one changed, shall be by petition to the County Court, signed by at least five land owners of the county, which petition shall set forth, in writing, a description of the road and what part thereof is to be altered or vacated. If for a new road, the names of the owners and tenants of lands, if known, and if not known it shall be so stated, over which the road is to pass, the points at or near which it is to commence, its general course, and the place at or near where it terminates. Previous to the filing of the petition notice thereof shall be given by posting written or printed advertisements in at least five of the most public places in the district in which said road shall be located for at least 20 days prior to the term of court at which such petition is to be presented; notice shall state the time when such petition is to be presented and the substance thereof, and a copy of the advertisement shall be filed with the petition.

Dr. Miles' Heart Cure

Cures a Prominent Attorney.

M. R. C. PHELPS, the leading pension attorney of Belfast, N. Y., writes: "I was discharged from the army on account of ill health, and suffered from heart trouble ever since. I frequently had fainting and smothering spells. My form was bent as a man of 80. I constantly wore an overcoat, even in summer, for fear of taking cold. I could not attend to my business. My rest was broken by severe pains about the heart and left shoulder. Three years ago I commenced using Dr. Miles' Heart Cure, notwithstanding I had used so much patent medicine and taken drugs from doctors for years without being helped. Dr. Miles' Heart Cure restored me to health. It is truly a wonderful medicine and it affords me much pleasure to recommend this remedy to everyone."

HAZEL GREEN, KY., July 23, 1898.

Editor Advance: Great changes result from natural and very simple processes. This holds good in all existence. While we are told in Holy Writ that "The Spirit maketh intercessions for us with groanings that cannot be uttered," we are led to believe also that the old earth has gone through much travail and pain in reaching the present state of life and beauty. I do not believe the sun has always had its present brightness, the sky its present loveliness, nor the earth its present fertility and beauty; but that all of these have come about by constant efforts, directed and controlled by the Great Architect of the universe. And as changes go on and are necessary to the best development and existence of the natural world, so do changes constantly occur in the intellectual and spiritual world. Man is a creature of development. Trials are necessary to prove him. Sorrows are necessary to soften him, and great conflicts are necessary that his strength may be tested. But it is better to leave the realm of philosophy and take God, who says, "All things work together for good to them that love God." I used to read this "work out" instead of "work together."

God has done great things for us—as the Psalmist says, "marvelous things." I believe His great doings for us are still going on, and if we will only let Him, He will lead us safely to the end.

So here I am in Wolfe county, 20 miles from a railroad and equally that far from a turnpike, among strangers and hills, and yet I do not know of any period of my life when I was more content and more hopeful of the future. I do not know hardly how to describe this country. To be fully appreciated one must see it. The soil is fairly good for most all crops natural to Kentucky, and for such products as Irish and sweet potatoes, watermelons and general garden stuff I have not seen it surpassed. The country is lovely; hills not too high nor steep to cultivate; the valleys often broad and fairly good, with an abundance of the clearest running water you ever saw; the finest timber and in the greatest quantity; coal in abundance (most farmers having their own mine), and the loveliest evergreens, the most beautiful wild flowers, and most every variety of fruit-bearing tree and bush, wild and cultivated, surrounded by a climate most delightful and inhabited by an intelligent, cultivated people, simple in their manners and unequalled for their hospitality. I believe I said cultivated. Hazel Green has an excellent school, and I see by the catalogue there were 76 boarding students last year. Most of the young men and young ladies I meet with are fairly advanced both in music and English, and we have school teachers in abundance and to spare. I might say here that more than likely—to population—there are more organs in Wolfe county than in Robertson, Nicholas, Mason, Fleming or Bath. And if this be true, and music being indicative of moral and intellectual development, then who is ahead? It might be stated, however, that ten miles from here, at Campton, is another very flourishing school or academy that equals, or surpasses, our school, both in work and attendance. Both of these schools are in Wolfe county. And, by the way, Prof. Bishop, of the Campton school, is a Germantown boy, and told me recently that he knew Geo. W. Jett, of the Advance. Bishop is a fine fellow and first-class instructor, and has but recently married one of the brightest women in the State. She is a daughter of Hon. Jonathan Quicksall, of Morgan county, and is one of the teachers in the academy.

In speaking of other interesting objects and things, I came near forgetting Hazel Green. The town is as beautiful as its name implies. Beautifully located in a broad valley on Red river, with a background of hills, covered in summer with most beautiful foliage and in winter fringed with the loveliest evergreens; substantially built of modern style houses, freshly painted, streets scrupulously clean, fences and yards well kept, with a population as clean in conversation and polite in manners as the most fastidious could desire. And besides this, we have the famous Swango Springs, visited yearly by a fair crowd of health-seekers, and THE HAZEL GREEN HERALD, a paper owned and controlled by Col. Spencer Cooper, made famous years ago in the story of "Jona-

than and His Continent," by Max O'Fall. I heard the Colonel remark recently, however, that while glory was a good thing, and some men died for it, that in future he would be pleased to enjoy something more substantial. THE HERALD gives promise of enjoying both. We also had a candidate on the State ticket in the late Democratic landslide, and I am glad to say he is still living and gives promise of undeveloped racing qualities. I speak of Judge G. B. Swango.

I have just returned from a several days' visit to Beattyville, in Lee county, where our district conference was held. The distance from here is about 35 miles, and the topography of the country is about the same as I have described. Beattyville has a railroad and is very substantially located on the north bank of the Kentucky river. They claim a thousand inhabitants and have some excellent buildings, and their court-house and court-house yard are so nice, well arranged, well kept and substantial that I would be glad if some Blue-grass folks—in Robertson—could see and note what excellent taste some mountain folks have. The town is provided with four very good churches, the Episcopalians especially being elegantly housed with a five thousand dollar church.

I met some prominent folks over there—I mean in State councils—who inquired kindly of Judge Deming, Hon. E. Kenton, etc. Judge L. F. Mann, formerly of Carlisle, and very well known in Robertson, is there, and prominent in public affairs, especially so in the church. He is one of the best leaders in a church choir I ever saw, and after watching him sing, and seeing his zeal for the church, I promised him future good will, and will say to the Robertson folks—the politicians—that "to know the Judge more is to love him better." He is a hustling, stirring, wide-awake, public spirited citizen with good judgment and great energy and force of character. The Judge has a very bright and entertaining family, his daughters being handsome and fine performers on the organ and lovely singers.

But, enough. I did not write the above to flatter or excite vanity, but having said hard things once, I felt it no more than mete that I should say that now that would in a great measure blot out unpleasant memories of a past conflict which was fraught with misunderstandings, fed by personal spite and partisan jealousy. The apostle says there will be a time "when we shall see as we are seen, and know as we are known;" when all misunderstandings here will be righted; when intentions and not acts will be counted, and there shall be songs and everlasting joy, gladness shall be abroad, and sorrow and sighing shall flee away. At that day, if not before, I hope to meet in a grand reunion many friends from Robertson. Let us all be ready.—Jas. R. Word in the Robertson County Advance.

MATTHEW J. LONG'S

Description of the Fight on San Juan Hill at Santiago de Cuba.

J. W. Strimple, of the Cincinnati Post, who visited the wounded of the Sixth Infantry on their arrival at New York last week on the Olivette, says:

All the men are rapidly recovering and all are anxious to get to the front as soon as possible. I visited a number of them in various hospitals here today and all are cheerful. Long, who is a Hazel Green, Ky., boy, had a companion tie up the wound in his neck and continued in the fight. A few minutes afterward, while kneeling and firing, Long was knocked senseless by the concussion of an exploding Spanish shell and a fellow soldier on either side of him was killed by its fragments. One was Private Hervey of his company, and the other a member of the Sixteenth Infantry. Long described to me the Ft. Thomas Regiment's part in the battle as follows:

"We were on the extreme left, right next to Santiago, the most dangerous position of all. We were in the thickest of the assault on the Spanish works on San Juan hill, which lasted three hours. There was no command to attack that Spanish position, but a private of our regiment was responsible for it. He gave a war whoop in which all the regulars are trained and which does so much to spur men on to deeds of valor. It was taken up all along the line of the whole brigade, and all the commands on earth would not have stopped the boys.

The hillside which we climbed, inch by inch, was covered with grass which came up to our heads and the slope caught the full glare of the burning sun. Grass made it impossible to get a breath of the stirring air and many were overcome.

"It was our whoops, not our bullets that carried San Juan. We could not see the Spaniards, but only their breast-works. When we got near their works they fled. Had they waited a little longer we would have been in a spot where there was no grass to hide us and they could have mowed us down. The closer we got the harder we yelled. Two colored companies flanked the Spaniards. They moved in the open and were mowed down like grass. The Sixth was the first to reach the works of the Spaniards, and Sergeant Beatty, of Company F, planted our flag there. Half of my company was killed or wounded in that attack, which was the big fight of all the engagement."

Proposed New Railroad.

The superintendent and other officials of the Chesapeake & Ohio railroad recently made a trip over the proposed route of a new railroad from Morehead to the coal fields of Morgan county, and they were so much pleased that an engineering corps has been sent to make a survey and estimate the cost. Those in a position to know say the prospects for the building of this road are very flattering. If built it will certainly be a wonderful feeder for the great C. & O.—Mt. Sterling Sentinel-Democrat.
